NOTICE

The major project of automating the Ship Registration records in Ottawa was commenced in 1982 and is now completed.

One of the benefits resulting from the automation project is the capability to provide a wide range of reports and statistics on registered ships. Statistics pertaining to the size, age, type of material and construction, type of propulsion, et cetera, will be available on fishing, commercial, pleasure, Government and Crown Corporation vessels. Various breakdowns are possible, including by Province and by port of registry.

Further details can be provided by contacting:

AVIS

L'automatisation des dossiers de l'immatriculation des navires à Ottawa, entreprise en 1982, est maintenant réalisée.

Elle offre maintenant, entre autres avantages, la possibilité de fournir une large gamme de renseignements et de statistiques sur les navires immatriculés. Il sera possible de donner des statistiques sur la taille, l'âge, le genre de construction et le type de matériau, le genre d'appareil de propulsion, et cetera, des navires de pêche, de commerce et de plaisance, ainsi que des navires du gouvernement et des sociétés de la Couronne. Diverses ventilations sont possibles, notamment par province et par port d'immatriculation.
